"I STARTED BUILDING YOUR KITS 45 YEARS AGO AND NO OTHER KITS COULD MEET YOUR STANDARD IN DETAILS AND STRUCTURE." J.S.C., N. Y.
"THANKS A LOT FOR YOUR DEDICATION AND THE NEW FL-305." A.H.M., CALIF.
C-D'S THEMSELVES HAVE BECOME A PART OF AVIATION HISTORY!

THE FIRST C-D FL300 NUMBER ADDED IN OVER 50 YEARS

IN HONOR OF THE PACKARD FAMILY FOR THEIR HELPING ME TO KEEP C-D ALIVE DURING THE EARLY PLANS DAYS; I THEREFORE DEDICATE

THE PACKARD DEMOISELLE PLANS NO FL305

PATTERNED AFTER THE FAMOUS 1907-1912 SERIES OF DEMOISELLES BY ALBERTO SANTOS-DUMONT, THIS IS A PRACTICAL AND SUCCESSFUL FLYING MODEL WHICH ANYONE BUT AN EXPERT WOULD CALL A TRUE MODEL OF ONE OF HIS 19-20-21 OR 22 DESIGNS. EVEN TO THE MAKING OF THE 8 OR 16 SPOKED WHEELS!

I PREDICT THIS NEW C-D MODEL WILL CREATE SENSATIONAL FLYING FUN FROM THE POPULAR 300 LINE IN ANY OF THE 6 SIZES IN WHICH IT IS TO BECOME AVAILABLE AFTER 7/1/83 - FOR RUBBER, C-0-2 OR GAS, FF OR CONTROL LINE. SINCE IT IS SO EXTREMELY LIGHT, IT MAY NOT BE EASY TO FLY IN R/C AS EVERY STRUCTURAL MEMBER IS EXPOSED AND MIGHT CAUSE DIFFICULTY AT THE "COCKPIT" AND WITH ITS "CONTROLS", THERE BEING NO AILERONS.

SCRATCH BUILDERS DESIGN SPECIALISTS: Those building from scratch most often realize that Cleveland-Designed models are the only ones they would care to spend all of their valuable time on - that there is just nothing like a C-D. We are selling C-D plans to give them the advantage of those many years of experience, over 64 years, over three generations now, in fine scale model aircraft designing. Cleveland has always been tops in "make-it-yourself" scale models. That is why they are called museum quality models. You will find them in museums all over the world because they are so accurate and authentic. E. T. Packard has dedicated a lifetime to the designing of quality models of full scale aircraft as pioneer. For this, he enjoys world wide reputation, so that any builder following his work is assured of having the finest possible model when he completes construction.
